Hello, Paul.

I'm doing well and hope you are, too.

I've reviewed the list of projects and all satisfy the City Code's requirement that recreation and parks impact fees be used only for recreation and parks facilities and capital costs.

Best of luck with the grant application!

Best,
Julianna

Subject: Recreation Impact Fee Eligibility

Hi Julianna,

I hope all is well!

In November, David provided an opinion on three projects related to the eligibility of using Recreation Impact Fees. I provided that email for review.

I am reaching out today for an opinion on a few new projects to determine if they are eligible to use impact fees, as I am preparing to possibly submit 1-2 FRDAP grant applications, which would be \$200k grant with a \$200k City Match (\$400K total per project). Below are the two projects:

Riverside Park Elements:

- Adding/renovating multi-purpose field for soccer/football
- Adding a fenced in dog park with amenities

- Design/permitting/survey
- Park Amenities (picnic tables, benches, trash receptacles)
- Landscape
- Re-paving the parking Lot

Aquatic Facility Elements:

- Adding a Splash pad within the Splash Zone pool deck with features/spray jets
- Replacing the large blue water slide & structure
- Landscape
- Amenities
- possible artificial turf in place of existing sod
- Adding fence

Can you please provide an opinion if the two projects listed above would be eligible to use recreation impact fees for funding of the grant?

If you have any questions please let me know.

Sincerely,

Paul Belden, CPRP | Recreation & Parks Director
